DIALOGUE LIST TEMPLATE

TIME CODE	CHARACTER NAME	DIALOGUE
00:01:25	Mikayla (VO - voice over)	“This is an example of me telling you about dialogue lists.”
00:01:45	Mikayla	“Dialogue lists are time-coded logs of all the dialogue/ narration in the final cut of your film. You must include the time-code for the dialogue in-point in the left-hand column; the character’s name in the middle column; and a verbatim transcription of what is said in the right-hand column. Each time another person speaks, you add a new row.”
00:02:06	Alyssa	(overlapping) something like this.
00:03:10	ON-SCREEN TEXT	“This is where you put in any on-screen text that comes up in your film, this mainly is useful for documentaries when you have names and titles of people coming on the screen.”
